

On documents for approval, WNT approved:

- New TG hydrophobicity index of manufactured nanomaterials
- Draft Corrected Test Guideline 125 for the Testing of Chemicals Particle Size and Particle Size Distribution of Nanomaterial
- Draft new Test Guideline on IL-2 Luc assay for immunotoxicity
- Draft Corrected and Updated Test Guideline 442C: ADRA and DPRA Test Methods
- Revised TG 442E skin sensitisation on IL-8 assay (Annex 3)
- Initial recommendations on evaluation of data from DNT IVB
- Study report on applicability of TG 442 D for nanomaterials
- Updated Performance Standards 216 for TG 492B RhCE methods for eye hazard potential
- Validation and Peer-review reports for EpiSensA
- Corrected TG 456, 458, 487, 497, 437, 438, 460, 491, 492, 494, 496, 498
