# Monthly Reports of JaCVAM Activities (June, 2024)

| NO. | Items | Contents |
|---|---|---|
| **Reports published in journals** | | |
| 1 | Authors | Mathisen GH[1], Bearth A[1,2], Jones LB[1,3], Hoffmann S[4,5], Vist GE[1,6], Ames HM[1,6], Hus øy T[1,7], Svendsen C[1,8], Tsaioun K[4], Ashikaga T, Bloch D[9], Cavoski A[10], Chiu WA[11], Davies HG[12], Giusti A[13], Hartung T[14,15], Hirabayashi Y, Hogberg HT[16], Joglekar R[17], Kojima H[18], Krishnan K[19], Kwon S[20], Osborne OJ[21], Roggen E[22], Rooney AA[23], Rousselle C[24], Sass JB[25,26], Sepai O[27], Simanainen U[28], Thayer KA[29], Tong W[30], Wikoff D[31], Wright F[32], Whaley P[1,33] |
| | Affiliations | [1] Norwegian Scientifc Committee for Food and Environment, Norwegian Institute of Public Health, Norway<br>[2] HF Partners, Switzerland<br>[3] Department of Politics and International Relations, University of Shefeld, UK<br>[4] Evidence-Based Toxicology Collaboration (EBTC), Johns Hopkins University, Bloomberg School of Public Health, USA<br>[5] Seh Consulting + Services, Germany<br>[6] Division for Health Services, Norwegian Institute of Public Health,Norway<br>[7] Department of Food Safety, Norwegian Institute of Public Health,Norway<br>[8] Department of Chemical Toxicology, Norwegian Institute of Public Health, Norway<br>[9] Department of Pesticides Safety, German Federal Institute for Risk Assessment (BfR), Germany<br>[10] Birmingham Law School, University of Birmingham, UK<br>[11] Department of Veterinary Physiology and Pharmacology, College of Veterinary Medicine and Biomedical Sciences, Texas A&M University, USA<br>[12] Department of Health, Washington State, USA<br>[13] Cosmetics Europe, Belgium<br>[14] Center for Alternatives to Animal Testing (CAAT), Johns Hopkins University, Bloomberg School of Public Health, USA<br>[15] CAAT Europe, University of Konstanz,Germany<br>[16] National Toxicology Program Interagency Center for the Evaluation of Alternative Toxicological Methods, Division of Translational Toxicology, National Institute of Environmental Health Sciences, USA<br>[17] Department of Obstetrics, Gynecology and Reproductive Sciences, Program On Reproductive Health and the Environment, University of California, USA<br>[18] Faculty of Engineering, Sanyo-Onoda City University, Japan<br>[19] Air and Site Assessment and Climate Indicators Branch, Division of Scientific Programs, Office of Environmental Health Hazard Assessment, USA<br>[20] Department of Pharmacology, Yong Loo Lin School of Medicine, National University of Singapore, Singapore<br>[21] Chemical Risk Assessment Team, Science, Evidence and Research Division, Food Standards Agency, Petty France, UK<br>[22] 3Rs Management and Consulting ApS, Denmark<br>[23] Division of Translational Toxicology, National Institute of Environmental Health Sciences, USA<br>[24] French Agency for Food, Environmental and Occupational Health and Safety (ANSES), France<br>[25] Natural Resources Defense Council, USA<br>[26] George Washington University,USA<br>[27] UK Health Security Agency, UK<br>[28] European Chemicals Agency, Finland<br>[29] Center for Public Health and Environmental Assessment, Chemical and Pollutant Assessment Division (CPAD), U.S. EPA, USA<br>[30] National Center for Toxicological Research of US Food and Drug Administration, USA<br>[31] ToxStrategies, USA<br>[32] Departments of Statistics and Biological Sciences and Bioinformatics Research Center, North Carolina State University, USA<br>[33] Lancaster Environment Centre, Lancaster University, UK |
| | title | Time for CHANGE: system-level interventions for bringing forward the date of effective use of NAMs in regulatory toxicology. |
| | Journal, Year, Volume (Issue), Pages | Arch Toxicol . 2024 Jun 14. doi: 10.1007/s00204-024-03802-6. |

| | | |
|---|---|---|
| 2 | Authors | Ashikaga T, Hatano K[1], Iwasa H[1], Kinoshita K[2], Nakamura N1, Ambe K[2], Tohkin M[2] |
| | Affiliations | [1] Hoyu Corporation<br>[2] Dpartment of Regulatory Science, Graduate School of Pharmaceuti□cal Sciences, Nagoya City University |
| | Title | Next Generation Risk Assessment Case Study: A Skin Sensitization Quantitative Risk Assessment for Bandrowski's Base Existing in Hair Color Formulations |
| | Journal, Year, Volume (Issue), Pages | J. Cos. Sci. Soc, 2024;48(2):1-5. |

| **International academic meetings** | | |
|---|---|---|
| 1 | Presenter (Oral) | Ishida S[1], Matsushita T[1], Sato K, Ashikaga T, Hirabayashi Y, Yamazaki D |
| | Affiliations | [1] Sojo University |
| | Title | Japanese approach to the proposal of an OECD Test Guideline using Gut-Liver MPS for the first pass effect analysis as a Context of Use of toxicokinetic simulator in chemical risk assessment |
| | The name of academic meeting, date and place of presentation | MPS World Summit 2024 (2024.6.13, Seattle, USA) |
| 2 | Presenter (Poster) | Ashikaga T, Tanabe I[1], Ishikawa S[1], Mizoguchi I[2], Yoshimoto T[2] |
| | Affiliations | [1] Scientific Product Assessment Center, R&D Group, Japan Tobacco Inc.<br>[2] Department of Immunoregulation, Institute of Medical Science, Tokyo, Medical University |
| | Title | Development of an in vitro respiratory sensitization test based on a concept of a co-culture system between humanbronchial epithelial cells and antigen presenting cells |
| | The name of academic meeting, date and place of presentation | LIVe 2024 (2024.6.20, Nice, France) |
